EXAMINER'S AMENDMENT

Allowable Subject Matter

1. Claims 33-69 are allowed.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
3. Authorization for this examiner's amendment was given in a telephone interview with Robert Tendler on February 5, 2007.

AMMENDMENT to APPLICATION

4. The application has been amended as follows:
 - a) Regarding claim 33, line 5
--message including a picture--has been changed to
"message including a non-facsimile picture";
 - b) Regarding claim 50, line 10

Art Unit: 2614

--and a picture obtained--has been changed to "and a non-facsimile picture obtained";

5. The following is an examiner's statement of reasons for allowance:

Regarding claims 33 and 50, Saltzstein et al, U.S. Patent No. 5,446,678 (hereinafter Saltzstein) discloses a method of sending graphical data over an alphanumeric paging service (see abstract). Wells et al, U.S. Patent No. 5,023,905 (hereinafter Wells) shows a data receiver that is capable of receiving scanned graphics by radio transmission (see column 2). However, neither Saltzstein nor Wells discloses the claimed limitations of:

a receiver operably coupled to receive a message from a message center over a wireless connection, the message including a non-facsimile picture supplied by the message originator and a caller ID automatically provided by a communications network that identifies the telephone number of the message originator, the message originator sending the caller ID with the picture to the message center; and

a controller operably coupled to display the picture and caller ID on a display.
